EVER GO TO A CANDY PULL
out in the country? If you did you know what fun it was and how good the candy tasted. Well, we cannot furnish the fun, but we can supply the

Good Old-Fashioned Candy

Come in and get some for the "missis" and the youngsters. If you taste it yourself, you want to buy an extra pound, for it will bring back old times again, and you'll not be content until you have eaten your fill.

Kolumbia Kandy Kitchen 11 N. 8th St.

TO DANCE, THEY MUST STUDY.

Washington U. Places Same Conditions On "Hops" As On Athletics.

ST. LOUIS, Oct. 14.—You must get a reputation for scholarship at Washington University before you can dance, play ball, sing jubilees or otherwise represent the institution. That is the edict of Chancellor Houston and the faculty. First come up to the requirements in scholarship, then do social or athletic or artistic stunts—that's the rule.

Just now some of the sophomores who belong to the Lock and Chain Society feel themselves securely locked and chained by this regulation, which Chancellor Houston has emphasized in forbidding them from taking part in the next monthly dance of the society in the university gymnasium.

Some of the students say Chancellor Houston has prohibited the use of the gymnasium for the dance and has issued an edict against all such university events, but the Chancellor denies that such is the case.

"I simply hold that members must first satisfy the scholarship requirements of the university before being permitted to take part in the dance," said Chancellor Houston. "We have a standing rule that requires this in the case of athletics or any other manner of representing the university."

To Have Persimmon Winter.

"It is a peculiar thing," said A. J. Driscoll, a salesman for an Eastern shoe house, at a Columbia hotel yesterday, "that an unusually hard winter always follows a large crop of persimmons. I was taught this when a boy and have noticed it ever since. Judging from the large supply throughout the middle states, I predict a severe winter."

A Dry Town—Love, politics and local option. Nothing but heaps of fun.

(Adv.)

MORE COSMOPOLITAN CLUBS.

Former U. of M. Man to Organize Foreign Students at Washington U.

Missouri will lead in the number of cosmopolitan clubs it has in its colleges and universities. F. A. Varrelman, a former member of the Cosmopolitan Club of the University of Missouri, who is now a student in Washington University at St. Louis, is organizing clubs in that city. He is being assisted by K. S. Inui, the Japanese orator and national secretary of the Association of Cosmopolitan Clubs of America, who lectured here last year on his inspection tour to the clubs in this country. They expect to have clubs in Washington and St. Louis Universities. After doing his work in St. Louis, Mr. Inui will go south, visiting colleges where there are many students of other nationalities. Mr. Inui is traveling south part of his way in a canoe which he has named "Cosmopolitan."

The Cosmopolitan Club here is the first club of its kind organized in the state. It was organized in April, 1908. Since then, clubs at the School of Mines at Rolla and at Park College have procured charters from the national officers of the association.

The clubs at Harvard, Cornell and other large universities where the number of foreign students is great have built houses. The club in the University of Illinois is the only club in the middle states that has now a permanent home.

The American members of the Cosmopolitan Club here will give the newly arrived foreign students at the University a reception next Saturday night in the women's parlors in Academic Hall.

FRESHMAN UNDER A PUMP.

First-Year Man Nearly Drowned by Hazards at Washington, Pa.

WASHINGTON, Pa., Oct. 14.—Because William K. Cowieson, of Pittsburgh, a student in the freshman class at Washington and Jefferson College, refused to obey college rules by wearing the regulation class cap, he was subjected to the third degree by the undergraduates.

Cowieson, following a preliminary encounter with other students, in which he escaped after cowering his hazards at the point of a revolver, was later seized by nearly 200 students, taken to the campus and placed beneath the college pump, where he was soured with water until half drowned.

Later, Cowieson went before Justice of the Peace Henry Meantz and swore out warrants for the arrest of five students on charges of assault and battery. Four of these students were given a hearing, three paying fines and one being discharged. A warrant for the arrest of a fifth student has not yet been served.

OLD BOOKS ON EXHIBITION.

"Mohammedan Koran" And Other Rare Editions at Library.

The book, "Mohammedan Koran," which at one time was the property of Salif Agil and was used by the Moros on the island of Basilan in the Philippines, has been placed on exhibition in the corridor of the library of the University of Missouri, along with other books of interest. It was presented to the library by J. A. Stader, a second lieutenant in the Philippines, who was a student in the School of Engineering of the University of Missouri.

There is also a book by Veralius on "De Humani Corporis Fabrica," William Osler, M. D., Regius professor of medicine, Oxford, England, who made the gift, said that "Veralius founded the science of anatomy."

A facsimile of the handwriting of Robert Burns in his "Poems and Letters," presented by W. K. Bixby of St. Louis, is also on exhibition.

STUDENTS MUST HAVE 2 GIRLS.

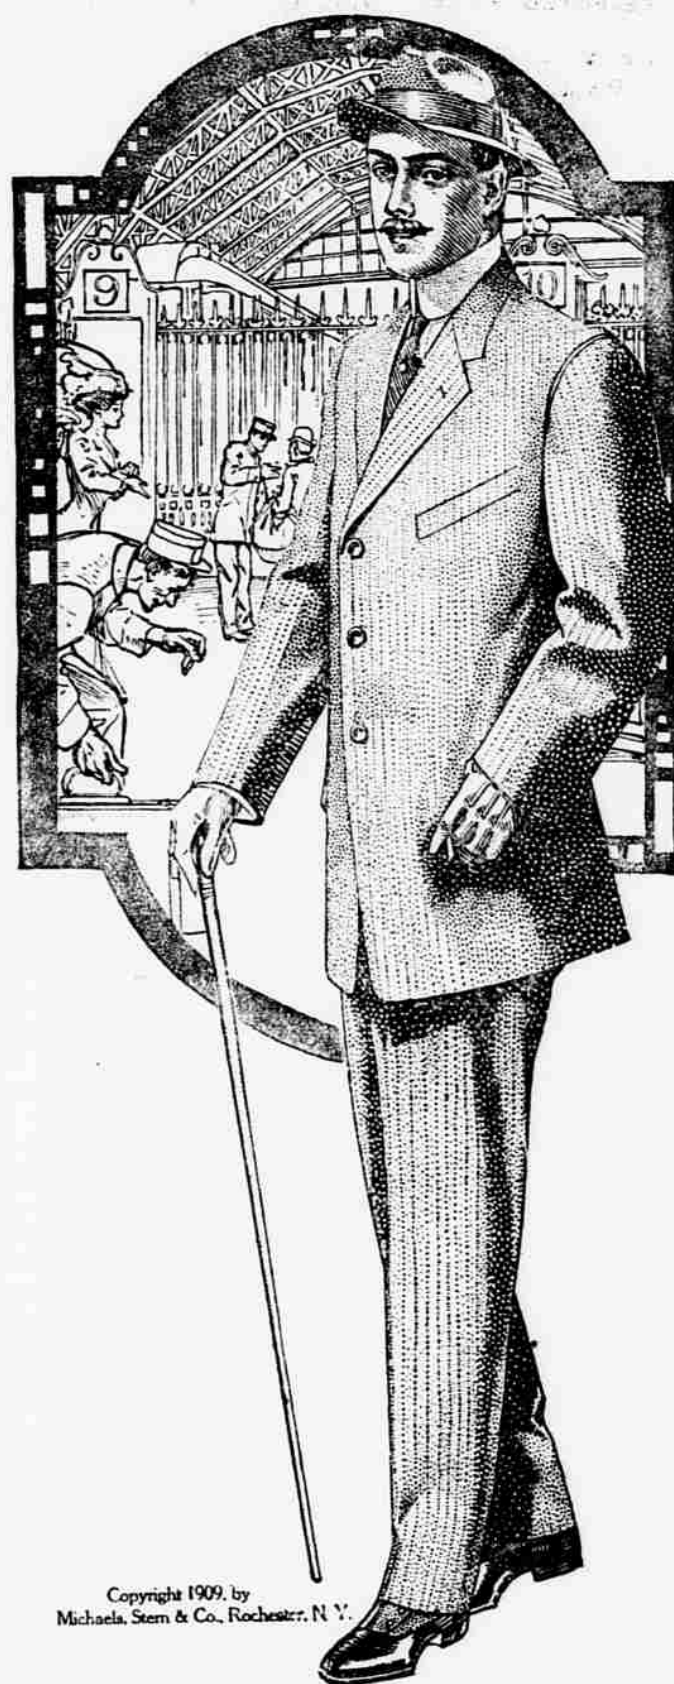

Park College Does Not Like the "Steady" in Its Social Life.

KANSAS CITY, Oct. 14.—"In order to have a best girl a man student at Park College has to have at least one other girl besides," D. A. White, superintendent of the dairy and stock department of Park College, Parkville, Mo., said yesterday at the Union Depot. "The rules of the college require the men to first obtain permission of the matron of the women's dormitories before they can call on one of the women students. Before the man can call on the same person again he must first call on one of the other women of the college."

K. U. WILL SELL POTTERY.

Kansas Clays Will be Used in Work Under Experienced Teacher.

LAWRENCE, Kas., Oct. 14.—The University of Kansas is to enter the market as a manufacturer, according to an announcement made by Professor Griffith, of the department of painting and design. Fine pottery is to be the product, and as soon as possible Kansas clays will be used in the making. Miss Maria Benson, the instructor for the new department arrived today from the famous Newcomb potteries of Tulane University at New Orleans, and will begin work immediately. Thirty-four students are already enrolled for the work.

RAIN HELPS THE FARMERS.

Wheat is Being Planted With Fair Prospects of Crop.

"Farmers who live near Columbia are pleased at the change in weather conditions," said J. D. Remio, owner of large tracts of farming lands south-west of here, at the M. K. and T. station yesterday. Mr. Remio was on his way to St. Louis to visit relatives.

"The rain which accompanied the change in temperature moistened the ground enough to allow them to plow and plant wheat with a fair prospect of a good crop next year," he added. "The wheat-sowing season has been delayed because of baked fields and the long drought. In many regions it has been impossible to break the soil and even if plowed it was in no condition for the planting of grain."

GEOLOGISTS LOST IN WILDS.

No Report From Party Supposed to Be in Canadian Wilderness.

MADISON, Wis., Oct. 14.—Professor C. K. Leith of the department of geology and mines, who is at the head of a geology party investigating rock formations near Hudson Bay, is lost somewhere in the Canadian wilds. No report of any sort has been received since the party entered the wilderness.

The party, consisting of Professor Keith, Hugh M. Roberts of Superior, and Francis S. Adams of Deerwood, Minn., left Madison in early June and were expected back early in September. The lateness of the season makes return nearly impossible now and it is hoped the party has reached either Fort Albany or Moosejaw Post.

Assembly for the High School.

The students of the School of Education high school have been divided into two sections to that the assembly room may accommodate the school. The assembly is held from 10 to 11 o'clock Tuesday and Thursday mornings. Dr. Guy L. Noyes lectured last Thursday on "The General Care of the Eye and Ear." He will lecture again tomorrow.

Recital at Christian.

Clem A. Towner, new head of the piano department of Christian College, will give a recital at the college auditorium tonight. He will be assisted by Mrs. J. Emory Shaw, soprano.

An Expert Polisher.

Ranchman—Did you find that new clerk of yours industrious?
Arizona Storekeeper—Industrious! Say, the moment I left the store, he cleaned up the cash register.—Puck.

T. N. E.'s at the "M."

In addition to the regular vaudeville and pictures Friday night, the Theta Nu Epsilon Neophytes will compete for prizes at the popular "M" Theatre. Come and see the fun. (Adv.)

Hand-Tailored Clothes

THE sort that look as good at the beginning of the second season as when you bought them, because they are not pressed or padded into shape, but worked, and moulded and formed.

Michael-Stern clothes are hand-tailored, of dependable fabrics, and sold to you at moderate prices.

We recommend these clothes because we want your permanent patronage.

Our principle is "One good suit brings you back for another."

Derby Sanitary Desk

marks a distinct advance in desk construction. Being raised from the floor, no dust or germ-laden rubbish can collect underneath, insuring cleanliness.

Card index, vertical file and document compartment are up-to-date utilities in our desks that appeal to the progressive business man.

Our specialty—fine mahogany, but we have a choice of woods and original designs to suit your purse and preference.

Write for illustrated catalog.
